

RE: Recommendation for the services of Maid In Montreal

To Whom It May Concern:

As a new mom and graduate student, I sometimes feel overwhelmed with all of the duties involved with studies, writing papers, spending quality time with my daughter, and husband and still maintaining my home to my standard of cleanliness. I have used other services and found that their work, while good, was not exceptional. I would feel disappointed after the cleaner had left, thinking that if my baby had napped for two hours, I could have done the same quick mop and dust that they had done. In fact, I frequently do.

I was looking for something exceptional. I wanted someone to do the sanitizing and scrubbing I am never able to do anymore. I wanted my floor cleaned under my sofa, and my counter wiped under my microwave. I wanted the sinks to be sterile and the tub to be spotless. And, you know? I just wanted my whole house clean at once.

I discovered *Maid In Montreal* approximately four months ago. I have used their services every few weeks since then. I have found them to be prompt, friendly, thorough and helpful. Every time they leave, I can be sure that my home is sparkling from top to bottom, smelling fresh and clean and looking bright and cheery. I know that my dust bunnies have not been swept under my rugs! They have been accommodating to last minute time changes and are competitively priced. They can be counted on for cleaning tips and suggestions, which, for someone who enjoys a clean home, is a blessing. And with two staff working, it makes the time that my home is "occupied" half as long!

Their work is impeccable and cheery and I would highly recommend this company for anyone wanting a periodic "freshen-up" or, especially, a regular cleaning service. I will continue to appreciate their service and support while I finish my classes and care for my family!

Sincerely,

Cindy Knapton
